UNDERGROUND

A17232

Plain colour velvet in polyester Flame Retardant, Underground was named after the famous record cover of the Velvet Underground created by Andy Warhol. The aim with this article was to change the look of this category of fabrics. While retaining the typical elegance and nobility of velvet, Underground has a casual and urban appearance, the result also of the short, crush-proof pile which keeps its shine. Washable and virtually indestructible (it has as many as 60,000 Martindale rubs), Underground is functional for residential use and also for the contract sector. Available in 24 colours, Underground is suitable for heavy use.

Underground, un velluto unito in poliestere Flame Retardant, deve il suo nome alla famosa copertina del disco dei Velvet Underground creata da Andy Warhol. Per questo articolo si è voluto dare un volto diverso a questa categoria di tessuti: pur mantenendo l'eleganza e la nobiltà tipiche del velluto, Underground ha un aspetto metropolitano e casual, dovuto anche al pelo corto, non scrivente, che conserva lucentezza. Lavabile e praticamente indistruttibile – presenta ben 60.000 giri Martindale – è pratico per il residenziale e adatto al settore del contract. Disponibile in 24 varianti, Underground è adatto per un uso intenso.

Underground, un velours uni en polyester non feu, doit son nom à la célèbre pochette du disque des Velvet Underground créée par Andy Warhol. Ce modèle répond à la volonté de donner un nouveau visage à cette catégorie de tissu : tout en conservant l'élégance et la noblesse du velours, Underground possède un aspect urbain et décontracté, dû en partie au poil ras, non tissé, qui conserve tout son brillant. Lavable et pratiquement inusable – avec un Martindale de l'ordre de 60.000 tours – il est adapté au résidentiel et au contract. Disponible en 24 variantes, Underground convient à un emploi fréquent.
