CALIPSO

A30174

Inspired by the goddess of the sea, the effect of the waves is reproduced on the surface of the fabric, achieved thanks to a frisé yarn. It is suitable for sheers and drapery.

Ispirata alla Dea del mare, presenta in superficie l'effetto delle onde, ottenuto grazie ad un filato frisé. Dall'aspetto materico e dalla mano semi morbida è adatta per tende e drappeggi.

Tiré son nom d'une Divinité marine, l'utilisation d'un fil frisé permet de reproduire sur la surface de l'étoffe le mouvement de l'onde. Il convient aux voilages et aux draperies.
